

REBECCA WHITTALL

PHARMACY AND INTERN RECRUITER
CONSONUS HEALTHCARE

What she calls an “amazing” relationship with her grandparents formed the foundation for Rebecca’s love of seniors, and regular visits to her grandmother in an independent living community, then in a nursing home, gave her a true appreciation for those working in long-term care.

Though her career started in a human resources position, she was quickly recruited into the company’s recruiting department when her natural strengths in interviewing and assessing talent became clear. Prior to joining Consonus as recruiter, she worked at Holiday Retirement, and brings more than 15 years of passion and experience to the position.

As a recruiter, Rebecca manages the full recruitment cycle of prospective Consonus pharmacy employees. Her greatest reward is in the simultaneous ability to not only change a candidate’s life with their dream job, but to help the organization perform at its best.

Rebecca is a graduate of California Polytechnic State University, with a Bachelor’s degree in Consumer Affairs and Home Economics. Outside of work time, she loves exploring local trails, parks and neighborhoods with her dog, Tobey, and experiencing new restaurants with friends and family. She also actively supports the Vital Life Foundation, and volunteers at a nearby senior living community.
